SKILLS SUMMARY

Developer with hands-on Linux and container-platform experience, building and teaching cloud-native infrastructure — Kubernetes networking and load balancing, Docker, and cloud deployment on GCP and DigitalOcean.

EDUCATION

• Software Development Training

Korea Software HRD Center, Phnom Penh
2024 — 2025

• B.S. Information Technology

Royal University of Phnom Penh
2020 — 2024

• High School Diploma

10 January 1979 High School, Siem Reap
2019 — 2020

LANGUAGES

Khmer Native

English Professional

Korean TOPIK I, Level 2

SOFT SKILLS

- 💡 Problem-solving
- 🤝 Mentoring
- 💬 Communication
- 📅 Self-learner
- 🔄 Adaptability
- 🕒 Time management

PORTFOLIO

tandara.site

CLOUD & INFRASTRUCTURE ENGINEER · DEVOPS · FULL STACK DEVELOPER

Developer with a growing infrastructure focus — Linux systems, containerization, and Kubernetes networking/load balancing — gained through personal cloud projects and teaching.

CLOUD & INFRASTRUCTURE FOCUS

- 1 **Linux systems** — Ubuntu from coursework through daily DevOps work.
- 2 **Kubernetes networking** — cluster load balancing and traffic routing, taught hands-on.
- 3 **Cloud deployment** — GCP and DigitalOcean, containerized services with Docker.
- 4 **Automation & monitoring** — CI/CD pipelines and Grafana dashboards for deployed services.

WORK EXPERIENCE

- **Instructor** 2025 — Present
Korea Software HRD Center · Phnom Penh
 - Teach software development and IT fundamentals, including Linux administration and container basics.
 - Guide students through setting up a Kubernetes cluster load balancer, covering networking and traffic routing.
- **Software Developer** 2023 — Present
Personal Projects
 - Built Assessify, PipeJet, and ZenTrio — full-stack platforms for evaluation, deployment, and task management.
 - Containerized apps with Docker/Kubernetes and NGINX/Istio load balancing; set up CI/CD (Jenkins, ArgoCD) with Grafana monitoring.
- **Computer Teacher** Aug 15, 2022 — Mar 15, 2024
First job — taught computer literacy and basic programming; trained new staff members to become teachers.

TECHNICAL SKILLS

- **Cloud & Infrastructure**
Google Cloud Platform (GCP), DigitalOcean, NGINX, Istio, Cert-Manager
- **Operating Systems**
VMware, Ubuntu, CentOS, Linux admin
- **Containers & Orchestration**
Docker, Kubernetes, Load Balancing, Service Networking
- **Development**
React, Next.js, Tailwind CSS, Java, SpringBoot, Python, C#, PostgreSQL database
- **CI/CD & Monitoring**
Jenkins, ArgoCD, Ansible, Grafana
- **Design & AI Tools**
Figma, UX/UI Design, Claude Code, ChatGPT

PROJECTS

- **ZenTrio** Top 1 of 8
Task management system for team collaboration, integrating Google Drive so users can freely manage resources within the platform.
- **EduTrace** Top 1 of 6
Connected learning platform for KSHRD — assessments tracking, meeting rooms, assessments management, and AI-powered progress reports.
- **Assessify** Top 2 of 8
Employee evaluation system streamlining performance reviews across CEO, HR, Manager, Team Leader, and Team Member levels.
- **PipeJet** Top 3 of 6
Automated deployment platform that helps developers ship their products to production quickly.

AI-ASSISTED DEVELOPMENT WORKFLOW

🔗 github.com/14th-Basic-Instructor-AI-Training/full-stack-destination

- 1 **Project conventions** — a CLAUDE.md defining architecture and code style.
- 2 **Reusable skills** — packaged instructions for recurring tasks.
- 3 **Subagents** — focused agents that keep context clean.
- 4 **Quality hooks** — automated lint/test gates before merge.
